

Garden Suite ver 2.0 is an easy to operate application working on Windows 7 (32 bit platforms), supported with in-house mobile application for Face recognition attendance & weighment with our in-house developed wifi hanging scale, Smart Weigh.

This software has successfully helped Tea Garden management to save lot of money & time by applying various checkpoints.

Modules Available - KAMJARI & PAYROLL WITH RATION & WORKERS TEA, STORES, FACTORY & BOUGHT LEAF, GARDEN ACCOUNTS (CASH BOOK & LEDGERS with SOE/ MES & Trial Balance).

Modules can be combined to exchange data or run as Standalone (in Single PC or LAN) .

Functionality :

- This software can be simultaneously run in Multiple PC's connected by LAN (Cabled or Wifi) or in a Single PC.
- Multiple Users can be created with password facility & different operational rights, the login details with activity & date/ time can be tracked for audit purposes.
- The Edit & Delete facilities are password protected & can be provided to authorized persons.
- Our Database is secured with password protection which is only available with us, to avoid any mishandling or corruption of data.
- All reports can be saved in different formats (pdf, doc, xls, csv, txt, html etc...) for further use.
- It works best with our Mobile Application for Logging Face recognition Attendance Data & Indigenously developed Wifi Hanging Scale, Smart Weigh. The most cost effective solution in the Tea Industry.
- Tasks like, Daily & Periodic Costing, PF returns, Leave With Wages , Ration, Bonus, Prorata wages & Extra leaf price (variable Task), Sick, Maternity, Overtime, all by automated calculation processed in minutes.
- Multiple Printer option (can be choosen while printing).
- Our Employee Master is designed in such a way that we can generate Census Reports.
- There is automatic daily data backup (through 3rd party app) in the Local Server. Also combined with an on-demand manual data backup to external drives (pen drive/ HDD).
- Software can run from Database saved in Pen Drive or external HDD.
- Software can be Customized as per Clients requirement during Installation.
- Daily Consumption Qty/Expenses, Green Leaf & Per Kg. Made Tea Cost displayed in home screen after Login also available with Daily Kamjari in Summary.
- Costing for a period and Made Tea cost can able obtained from Kamjari report generated for a period.
- Wages, PF, DA, VDA, Basic Pay, Pay Books, Boidar, Ration Book, Promotions all can be changed/ handled by Admin, whenever there is any Agreements/ Circulars/ Approvals.
- Documents can be previewed before printing. (Search/ Zoom/ Page Scroll options)
- Software can be Customized as per Clients requirement during Installation

- Software is designed in a manner, where minimum service issues appear, thus saving your & our valuable time.
- Support is provided remotely from 8 am to 6 pm, through AnyDesk/ Team Viewer or the like for prompt resolution possible in same day. Prompt On-site support is also available in case of any major issue, strategic location of our Regd. Office at Bagdogra (Siliguri), helps in reaching the Site just within a few hours by Road/ Rail/ Air.
- After all Customizations, Master File creations, Testing with Easy Weigh/ WiFi Scale, All trials given, Final Kamjari Can be got after 7 days from installation & also subsequently the Fortnights Wages.

FEATURES of Payroll Module

1. Daily Kamjari generated immediately after importing data from Easy Weigh and input of other costing parameters - entire process takes 10 mins.
2. Summarized Kamjari for a period.
3. Daily Rated Worker Wages (Fortnightly) with PAYSLIPS & Carry forward Coins.

STORES

Purchase Register:

- i) Add Suppliers data.
- ii) Add New Items.
- iii) Make Purchase through Challan. (HO & Local)
- iv) Update Bill later On.
- v) Item Cost calculated on Average Cost Basis.
- vi) Mark Bills after payment is made.
- vii) Generate Purchase reports. (Challan wise, Itemwise, Supplier wise, Date wise.)

Issue Register :

- i) Requisition Entry.
- ii) Request By, Purpose, Account Heads can be entered.
- iii) Generate Issue Reports. (Item wise, Date wise, Requester wise, Purpose wise, Account Head wise, Issue Summary)

Stock Reports :

- i) Item at a Glance (as on current date).
- ii) Stock Book.

Consumption Reports

- i) All stores consumption.
- ii) Chemical Stores consumption.

FACTORY

Factory Run Data :

- i) Factory Open/ Close Time
- ii) Dryer Start/ Stop time.
- iii) 1st Roll start time.
- iv) Fuel Consumption for Withering & Drying.

Green Leaf :

- i) Own Leaf entry.
- ii) Bought Leaf Entry.
- iii) Green Leaf Stock Maintain.

Production :

- i) Bulk Tea Made (CTC/ Orthodox/ Green Tea)
- ii) Consumption of Own Leaf & Bought Leaf Vs Made Tea
- iii) Bulk Stock Maintain.

Sorting :

- i) Grade wise sorting of Bulk.
- ii) Grade wise Stock Maintain.

Packing :

- i) Packing Gradewise into different Pack sizes.
- ii) Lot No. & Serial No. maintain for Bags/ Packets.
- iii) Gross wt., Net wt., Tare wt maintain while packing.
- iv) Packed Stock Maintain.

Despatch :

- i) Invoice with GST for Auction/ Private Sale/ Other Sale/ Employee Tea Distribution/ Sampling.
- ii) Despatch Challan.
- iii) Gate Pass.
- iv) Transporter.

Daily MIS Reports :

- i) Factory Run Data.
- ii) Fuel Consumption.
- iii) Packing Material Consumption.
- iv) Mandays Consumed.
- v) Crop Synopsis.
- vi) Grade % report.
- vii) Sorting/ Packing/ Despatch reports.
- viii) Green Leaf (Own & Bought) report.
- ix) Withering/ Drying & Made Tea report.

GARDEN ACCOUNTS

- i) Debit/ Credit Vouchers (CashBook & Journal).
 - ii) Cash/Bank maintain with real time balances
 - iii) Daily Cash Book.
 - iv) Account Head wise Details.
 - v) Liability & Advance.
 - vi) Daily/ Fortnightly/ Monthly Expenditure Statements. (MES/ SOE)
 - vii) Ledger Maintain.
 - viii) Trial Balance.
-

DEVELOPMENT PLATFORM :

Frontend – Microsoft Visual Basic 6 (GUI based coding)

Backend – MS-Access (database)

Executable Compiltation – VB6 compiler for Windows 7 OS.

Reports Design – Seagate Crystal Reports 6

SYSTEM REQUIREMENTS (Preferred) :

CPU – Intel Pentium V, should have USB slots.

GPU – Not required.

RAM – 2 GB DDR

Hard Disk space – 1 GB free space.

Internet Conection – Broadband preferred.

Software Requirements – Windows 7 (32 bits), MS Access 2007

Printer – Monochrome Laser Printer or Ink Tank Inkjet printer with A4 printing.
